

## A smile for life!

One of the aims of the South African Association of Hospital and Institutional Pharmacists (SAAHIP) is to uphold and assist in the promotion and maintenance of the health of the people of South Africa through the provision of a satisfactory and dependable pharmaceutical service.

Besides the valuable service that pharmacists deliver to the community, SAAHIP, as an organisation, wanted to become involved with an NGO that makes a positive difference in someone's life that has a long-lasting effect. For this reason, SAAHIP partnered with Operation Smile. Over the years, SAAHIP members donated 70 smiles. The most recent donation was made on 13 March 2021, when SAAHIP donated R49 500 that will give nine kids a smile for life. SAAHIP is committed to continue making a difference in the lives of many South Africans.
