Professional Innovation Project 2021 Winner... Khomotso Lesedi Mogakane

Project title:

Health education for foundation phase learners in primary schools.

Aim:

Improve medicine use and safety practices as well as general health practices by means of an educational tool built on evidence-based medicine in the form of a story book.

Background:

As healthcare professionals, we have the obligation to direct our education, research and service activities towards addressing the priority health concerns of the community, which includes children.

This project will focus on developing an educational story book for learners in primary school that will teach them how to take responsibility for their own health.

We wish you
all the best!

Khomotso Lesedi Mogakane

Our message to you...

We are here for YOU and are committed to YOU as young pharmacists.
We invite you to participate in upcoming YPG activities and engage with us!
